Street Work in Downtown District to Begin April 2

Salisbury, NC_March 29, 2007 – The City of Salisbury's Street Division announces that street work in the Downtown District is scheduled to begin at 7 pm on Monday, April 2. All work is currently scheduled for completion during the first week of April contingent on weather conditions. Street milling will take place in the 100 and 200 blocks of East Council and East Liberty Streets and in the 100, 200, and 300 blocks of N. Lee Street. Streets will be closed to thru-traffic during street work; however residents and businesses will retain access to their drives throughout the entire project.

Following completion and clean-up of the milling work, the installation of new pavement will tentatively begin during daylight hours on Wednesday, April 4. Steve Weatherford, Street Division Manager shares, "The new pavement can be driven on almost immediately following the pavement process." Please contact Weatherford regarding questions or concerns, at 704-638-5251 or via email at Sweat@salisburync.gov.
